OBJECTIVE

Motivated Computer Science student at the Faculty of Computers and Artificial Intelligence, seeking internship or part-time opportunities to apply programming and problem-solving skills. Passionate about learning new technologies, artificial intelligence, and software development, with a strong desire to gain real-world experience while continuing academic studies.

EDUCATION

Faculty of Computers and Artificial Intelligence

Bachelor's Degree in Computer Science

(Expected Graduation: 2027)

EXPERIENCE

Trainee – Digital Egypt Pioneers Initiative (DEPI)

- Currently enrolled in training under the Digital Egypt Pioneers Initiative, focusing on practical technical skills and real-world applications.

TECHNICAL SKILLS

- Full stack developer
- Programming Languages: C++ , Java , python , html ,css , c#
- Microsoft Office: Word, PowerPoint, Excel

- Basic knowledge of Data Structures & Algorithms
- Problem Solving & Logical Thinking

PROJECTS (ACADEMIC)

Programming Projects – University Coursework

- Developed a Connect 4 game featuring an AI opponent.
- Developed small applications using C++ and Java.
- Applied object-oriented programming concepts.
- Practiced debugging, testing, and code optimization

EXPERIENCE

Student – Computer Science

- Completed multiple academic assignments and team projects.
- Worked on presentations and reports related to AI and programming topics.
- Collaborated with classmates on problem-solving tasks.

SOFT SKILLS

- Strong Communication Skills
- Teamwork & Collaboration
- Time Management
- Self-Learning & Adaptability
- Attention to Detail

ACTIVITIES & INTERESTS

- Learning new programming technologies
- Artificial Intelligence topics
- Online courses and self-development
- Participating in academic group projects
